Review Report for Interim Condensed Financial Information
Members of the Board of Directors
Kuwait Remal Real Estate Company K.P.S.C.
Kuwait

Introduction

We have reviewed the attached interim condensed statement of the financial position of Kuwait Remal Real Estate Company K.P.S.C. ("the Company") as on 31 March 2018 as well as the statement of profits and losses and comprehensive income, changes in interim equity and cash flows for the three months period that ended on that date. The preparation and presentation of this interim financial information in accordance with the International Accounting Standard 34 - "Interim Financial Reporting" - is the responsibility of the Company's management. Our responsibility is to express the outcome of our review of this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagement no. 2410, "Review of the Interim Financial Information by the Independent Auditor of the Entity". The review of the interim financial information includes, in principle, query to employees responsible for financial and accounting information and the application of analytical procedures and other review procedures. The scope of the actual review is less than that applied in the audit process in accordance with International Standards on Auditing. Therefore, it can't enable us to confirm that we are aware of all significant events that may be identified during the audit process and, accordingly, we do not express an audit opinion.

Reason for our qualified result:

1-The attached interim information includes available-for-sale investments carried at a book value of KD 3,862,130 (31 December 2017: KD 3,862,130 - 31 March 2017: KD 7,866,877) (note 4), which the Company has not assessed to be included with its fair value as on that date. If the Company had assessed these assets to determine its fair value, the book value of these investments could have been adversely or positively affected either as a result of decrease or an increase in its value. However, it was not possible to determine the effects resulting from not conducting this assessment by the company regarding the Interim Financial Information.

2. The legal proceedings filed against the Company include a lawsuit filed by a local bank due to the non-payment of a loan amounting to KD 34,500,000 which was due on 1 June 2016, as well as financing charges of KD 5,288,028 included under "other credit balances". Till date of this interim financial information, The case remains pending and the outcome of this case cannot yet be determined on the attached interim financial information (note 9, 10, 15). We have not been able to verify the existence and completeness of these balances due to the lack of bank confirmation.

Qualified outcome

Based on our review, and with the exception of the implications of the provisions stated in the reason for our qualified result, nothing has come to our attention that causes us to believe that the attached interim financial information is not prepared, from all the material aspects, in accordance with IAS 34.

Emphasizing some points:

- We would like to refer to (note 13) regarding the interim financial information showing that the accumulated losses amounted to KD 12,494,519 (31 December 2017: KD 12,733,502 - 31 March 2017: KD 524,193). Moreover, the current liabilities of the Company exceeded its current assets by 27,817,377 (31 December 2017: KD 32,508,295 - 31 March 2017: KD 31,956,020) In addition, as stated in notes 9 & 13, the term loans and financing charges amounting to KD 38,938,028 have not been paid at their due date, and the creditor bank has taken legal action against the company, and the company filed cross-legal proceedings. The legal proceedings are still ongoing between the parties. These circumstances may indicate a material degree of uncertainty which leads to doubts on the company's ability to continue.

- We would like to refer to (note 15), as the company is a party to legal proceedings and lawsuits regarding real estate transactions and such legal proceedings are still ongoing. The end result of these matters cannot be determined at present.

Our conclusion is unqualified about the above.

Other matter:

The financial statements for the year ended 31 December 2017 have been audited by another auditor who issued a qualified opinion on the financial statements as of 1 July 2018.

Report on other legal and regulatory requirements

In addition, based on our review, the interim financial information is consistent with the Company's books, except as stated in the reason for our qualified result. According to our knowledge and belief, during the three months ended 31 March 2018, no violations of the provisions of the Companies law No. 1 of 2016, as amended, and its executive regulations, nor of the Company's memorandum and articles of association, as amended, have occurred that might have had a material effect on the business or the financial position of the Company.

Notes to the interim condensed financial information (Unaudited)
For the three months ended 31 March 2018

13 Accounting Principle, Company Continuity and Working Capital

The interim financial information was prepared in accordance with the principle of continuity, which assumes that the Company is able to realize its assets and settle its liabilities through its normal activities. The interim financial information does not include any amendments that may result from the uncertainty of the Company's continuity.

As of 31 March 2018, the Company's accumulated losses amounted to KD 12,494,519 (31 December 2017: KD 12,733,502 - 31 March 2017: KD 524,193), and the Company's current liabilities exceeded its current assets by KD 27,817,377 (31 December 2017: KD 32,508,295 - 31 March 2017: KD 31,956,020) as a result of classification of loans in the interim statement of financial position as current loans because the Company's major financing arrangements were due at 1st June 2016 amounted to KD 34,500,000 (note 9) and the financing charges and bank fees payable in respect there of are KD 5,288,028 (note 10).

In view of the non-payment of the outstanding balance of the loans referred to above, the principal creditor bank "the Bank" has taken legal action against the company and the company has taken corresponding legal action (note 9,15). The company's management is currently studying the legal options available by holding consultation with the company's legal advisors. In addition, the company's management simultaneously negotiates with other banks for alternative financing facilities and considers opportunities to sell certain assets owned by the company to meet the loans obligations, taking into account that the value of the company's investment properties mortgaged to the bank exceeds the value of the loans and the bank facilities payable by the company. The company's management believes that it will settle the loans and facilities due successfully during the coming period.

The company's continuity depends on its ability to generate profits, enhance its future cash flows, reschedule and renew its credit facilities, as well as getting the support and finance from major shareholders.

The management expects that any payments required will be settled from the cash flows generated by the operating activities, in addition to getting an alternative bank financing, sale of certain assets or obtaining support from shareholders. The management is confident that the company has sufficient resources to continue operating in the foreseeable future.
